

Ice Storage, Transport and Bagging Systems

Whether you're considering our cubers, flakers or Pearl Ice® machines, our commitment is, and always has been, to provide you with the most simple, reliable and easy-to-use commercial ice machines in the industry. In addition to that, Ice-O-Matic machines are backed by a world-class support network and the industry's longest warranties. You'll find the results of our single-minded focus on top-quality ice machines in our ice. **Ice. Pure and Simple™**

ICE.

That's all we do

Manufacturing ice machines in Denver, Colorado, since 1952, Ice-O-Matic has worked tirelessly to simplify, enhance and perfect the way ice is made.

The right machine for the right application

Ice-O-Matic offers a wide range of commercial ice-making products including cube ice makers, flake and Pearl Ice makers, storage bins, dispensers, transport systems, bagging systems and water filters.

PURE.

Antimicrobial

Our innovative, food-safe AglON® antimicrobial compound is permanently integrated into essential food-zone areas. This innovation safeguards the sanitation of the ice-making system.

Water filtration

We offer the highest-quality water-filtration program to enhance the purity of the ice, eliminating unwanted taste and odor, which are common problems with unfiltered ice machines.

SIMPLE.

Practical design

Ice-O-Matic ice makers are designed for simplicity with features such as our easy-access cabinet, easy-to-clean ice-making system and simple electromechanical controls.

Long-lasting performance

Our ice machines are designed for unparalleled ease of operation, maintenance and service, with quick and easy diagnosis. And the same goes for our accessories.

Quality and reliability

Ice-O-Matic ice machines are highly dependable and constructed with the industry's only stainless steel chassis, stainless and rigid plastic cabinets, and other precision parts. Our machines boast proven reliability and are backed by the longest warranties in the industry.

Easy to do business with

We know time is money, and getting it right the first time is essential. That's why we strive to always recommend and install the right machine for the job.

ICE STORAGE BINS

SLOPE-FRONT BINS

Ice-O-Matic slope-front storage bins are the best solution for low- to medium-volume ice storage needs. Our industry-leading design includes a Safe-Hold door hinge, a built-in scoop holder, tightly sealed bin doors and a stainless exterior. One-piece polyethylene bin liners and industrial foam insulation provide maximum ice preservation with less congealing. These reliable bins are constructed with practicality in mind for years of carefree operation.

B55

22" WIDE (559 MM)

Smaller design accommodates tight spaces
Integrated storage capacity of up to 351 lbs (159 kg)
Perfect combination with our 22" (559 mm) cubers and 21" (533 mm) MFI or GEM units

30" WIDE (762 MM)

For medium-volume storage needs
Three models with integrated storage capacity of up to 510 lbs (231 kg)
Bin-top adapters are available to be combined with various size ice machines

48" WIDE (1,219 MM)

When space allows for high-volume storage
Integrated storage capacity of up to 854 lbs (387 kg)
Bin-top adapters are available to be combined with various size ice machines

UPRIGHT BINS

For the ultimate in high-volume ice storage requirements, our upright bins offer unique storage solutions for various applications. Our single-piece insulated bin liner provides sanitary storage with maximum preservation, while the viewing window allows for quick ice-level checks. The stainless steel exterior construction is very durable, sanitary and easy to clean. The bin doors feature a Safe-Hold hinge and an industry-leading opening to make scooping ice as easy as possible.

B70

30" WIDE (762 MM)

For maximum storage in minimal space
Two models with integrated storage capacity of up to 1,023 lbs (464 kg)
Adjustable bin top works with various size ice machines and configurations

48" WIDE (1,219 MM)

For medium-volume storage needs
Integrated storage capacity of up to 1,142 lbs (518 kg)
Adjustable bin top works with various size ice machines and configurations

60" WIDE (1,524 MM)

When space allows for high-volume storage
Two models with integrated storage capacity of up to 1,807 lbs (820 kg)
Adjustable bin top works with various size ice machines and configurations

ICE TRANSPORT AND BAGGING SYSTEMS

ICE TRANSPORT SYSTEMS

The Ice-O-Matic Ice Transport System (ITS) is designed for maximum versatility and functionality. Offered in four popular sizes, they boast an all-stainless-steel exterior for durable, convenient, sanitary solutions for shuttling ice. Sloped interior walls eliminate raking, and the unique paddle slots allow for easy ice breakup. The reliable guillotine-style ice chute makes it easy to control the ice flow. Covered carts and hands-free dispensing help you quickly and efficiently move ice to your area of usage. Each system includes a single or double cart (125 lb, or 57 kg), paddle and scoop. Bin tops are adjustable and can accept a variety of machine sizes and configurations.

ITS1000

36" WIDE (914 MM)

Single chute and cart
Integrated storage of up to 1,069 lbs (485 kg)

48" WIDE (1,219 MM)

Single chute and cart
Integrated storage of up to 1,161 lbs (527 kg)

60" WIDE (1,524 MM)

Single chute and cart
Integrated storage of up to 1,846 lbs (837 kg)

72" WIDE (1,829 MM)

Double chute and cart
Integrated storage of up to 1,069 lbs (485 kg)

ICE BAGGING SYSTEMS

Bag your own and double your profits on packaged ice sales compared to purchasing bagged ice. With the Ice-O-Matic Ice Bagging System (IBS), you'll also eliminate shoveling and scooping required to manually fill bags. Our state-of-the-art bagger ensures you get ice by the bagful in seconds. With the low-voltage foot pedal, the durable stainless auger and agitator, and the wide-opening chute, the IBS quickly and safely dispenses 2 lbs. of ice per second to meet your needs. The IBS comes standard with an all-stainless exterior and bin top for maximum durability.

IBS1000

30" WIDE (762 MM)

Integrated storage of up to 647 lbs (293 kg)

48" WIDE (1,219 MM)

Integrated storage of up to 1,078 lbs (489 kg)

ICE STORAGE BINS, TRANSPORT AND BAGGING SYSTEMS

Ice-O-Matic ice storage bins, transport systems and bagging systems are quite simply the best approach to ice handling. Our convenient design includes features such as the Safe-hold hinge, which holds the door open while you access the ice, a built-in scoop holder so you never have to search for a scoop again, and tightly sealed bins to improve ice preservation. Polyethylene bin liners and industrial foam insulation prevent ice from melting too quickly, which means more ice for your customers. All bins feature height-adjustable legs and are constructed with practicality in mind for years of carefree operation.

ITS1000

- Stainless steel exteriors are scratch resistant and easy to clean
- Seamless, one-piece poly bin liners are leakproof and eliminate the use of silicon found in competitive products
- Safe-Hold hinge holds the bin door open for safe and easy access to the ice
- Customized bin tops are available for a variety of machine installations
- Wide-opening doors offer quick and easy access to the ice

Peace-of-Mind Protection

Every Ice-O-Matic ice storage and transport product is backed by our full-coverage warranty providing two-years parts and labor.
